

The Scintillating and illuminous power of Jupiter

By Bejan
Daruwalla

All my life I have been fascinated by the powers of Jupiter as Jupiter is fat and roly - poly like myself! Also, it is a planet of good luck and I call it the Santa Claus of the zodiac. I look like a Santa Claus!

In addition Jupiter is the planet of wisdom, knowledge and surprisingly enough luxury, riches, beautiful items of art and paintings. Let me introduce you to Prince Lakshyaraj Singh Mewar, my adopted son. He exemplifies the power of Jupiter. One illustration is worth a thousand words. Prince Lakshyaraj Singh Mewar of Udaipur has Jupiter in his 7th house in his Indian horoscope and the 7th house stands for inheritance of intelligence, innovative ideas and doing his duty diligently to look after and maintain beautifully such huge and divine property such as Jag Mandir Island Palace and here all come with great hope and go with a happy and contented heart as the property is significantly used for big fat weddings and by weddings I mean a new cycle of life for the individual or birthday celebrations or engagement ceremonies and it finally brings new hope, joy, a glimpse of better tomorrow for the person.

Prince Lakshyaraj has Pluto the atom

bomb power planet in Scorpio by Western Astrology. This gives him magnetism, dynamism and brilliant ideas. From July 2013 to July 2014 Jupiter will be in the sign Cancer by Western Astrology. Jupiter will make a fine trine or powerful formation with Pluto. Ganesha says it will be a grand time for dashing and kind Prince Lakshyaraj Singh and his City Palace which gives livelihood to so many people

and that gives me great happiness.

Please wait I have reserved the final stroke of grandeur for the end. Venus the planet of beauty, arts, weddings, birthdays, celebrations, rituals, in short hope and happiness is in Pisces by Western Astrology. Venus in Pisces is at peerless perfection and opulence and magnificence. Yes Venus gives the finishing touch to both Prince Lakshyaraj Singh Mewar and City

Palace. That is the real reason why the City Palace is truly world famous.

For you dear readers I have two mighty mantras for Jupiter / Guru. They are: 1). OM GURUVEY NAMA 2). OM JHRAM JHREEM SA GURUVEY NAMA. For Venus / Shukra the mantra will be OM DHRAM DHREEM DHROOM SA SUKRAYA NAMA. These mantras will help you in life.

On a strictly personal note I must say that I was thrilled to be the Chief Guest at the Annual prize giving ceremony of Maharana Mewar Educational Institution, Udaipur. As a former professor of English, a host of memories swelled in me and I was for once overwhelmed with the response of the students. The students of India represent the mighty destiny of Bharat Mata. Yes that is my deep and abiding conviction and faith.

All of it was a truly memorable occasion for me and I am now in my 83rd year as we Indians say! To me Maharana Mewar Educational Institution is most meaningful as it shows the generosity and philanthropy of Prince Lakshyaraj Singh Mewar. He is both, a good man and a noble son.

May Ganesha always be with Prince Lakshyaraj Singh Mewar and his royal and divine family by the grace of the planet Jupiter which is the planet of wisdom so that they carry the royal tradition of Mewar flying high with pride and honor.

TULSI (HOLY BASIL)

Trupathi, has established that the TULSI Plant exhales Ozone, the molecules of which contain three atoms of oxygen in place of ordinary atmospheric oxygen which has only two atoms in each molecule. According to reports published by the Vallabhbai Patel Vriksha Sansthan, Delhi, an oily substance found in TULSI actively destroys Tuberculosis bacilli.

TULSI is said to contain about 27 minerals and is used extensively in the preparation of more than 300 Ayurvedic and Homoeopathic medicines. It destroys disease-carrying germs and is used in the treatment of several ailments including Asthma, Tuberculosis, Leprosy etc. It also purifies blood and improves digestive system.

Things exposed to the aroma of TULSI or placed near a TULSI Plant will not deteriorate or get spoiled quickly. A dead body too does not decay rapidly if placed among TULSI Plants. Perhaps

the ritual of putting TULSI leaves in the mouth of a dying person or keeping a TULSI Plant near a dead body originated on the basis of this fact. There is also a tradition of placing TULSI leaves in

foods and drinks that have to be stored during solar and lunar eclipses. The bacteriocidal properties and electrical energy of the leaves protect the stored victuals from the adverse effects of the

rays of the eclipsed luminaries.

TULSI has a salutary effect not only on the body, but also on the thoughts, tendencies and inclinations of the mind. It is stated in the Padma

Purana, Uttara Khanda, that wherever the aroma of TULSI is carried by the wind, it purifies the atmosphere and frees all animals from all baser tendencies.

TULSI helps not only in curing physical ailments but also in promoting purity, sanctity and spiritual progress. A TULSI Plant is sure to act as a centre for spreading positive and ennobling thoughts. In view A Tulsi Plant (Holy Basil) at the doorstep of the house or in its vicinity keeps the atmosphere pure, supplies oxygen in greater quantities, ensures the health of its occupants and keeps it free from poisonous insects.

The contribution of the TULSI Plant to the purification of polluted air is unrivalled. It possesses bacteriocidal properties. The emanations from TULSI Plants are in fact fatal to mosquitoes. Even snakes cannot tolerate the aroma of TULSI and keep away from it.
